DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-5, 8, 10, 11 and 13 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U.S. Patent No. 6,284,905 B1. The '905 patent discloses monocyclopentadienyl titanium(III) derivatives of the formula 5b shown on column 7, lines 25-35, wherein Z is boron and M is titanium. The '905 patent particularly discloses the compounds listed on column 35, lines 52-67 through column 36, lines 1-2. Further, the '905 patent discloses a catalyst composition and a process for the polymerization of an olefin. See examples.

Allowable Subject Matter

4. Claims 6, 7 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
